VACUETTE®

Transport Line

Sample transport has
never been easier.

greiner
BIO-ONE

SAFE SAMPLE TRANSPORT

in accordance
with the applicable
guidelines

All of our products
have been optimized
to make daily routine
easier for clinical staff.

SAFETY FOR YOUR STAFF

The products of the VACUETTE® Transport Line allow you to transport laboratory samples such as blood, urine or saliva safely – refrigerated if necessary – from sampling to the laboratory.

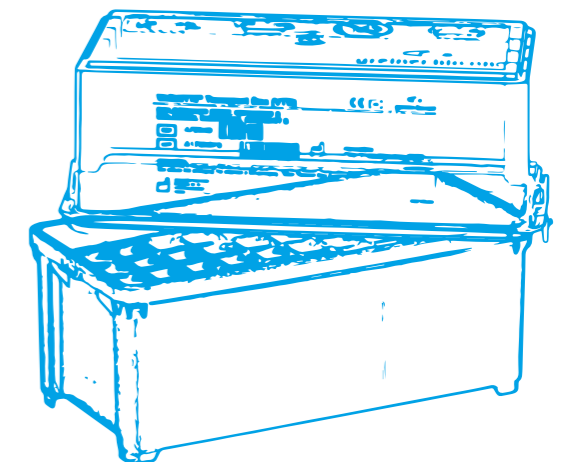

Play it safe even when transporting VACUETTE® Virus Stabilization Tubes containing samples with SARS-CoV-2, Influenza A or Influenza B with

the VACUETTE® Transport Line: your staff remains consistently and professionally protected against potential infections.

All products have been developed for demanding clinical everyday use and are therefore easy to handle, easy to sterilize, robust and optimized for low weight.

TRANSPORT LINE COMPONENTS:

- / VACUETTE® Transport Boxes
- / VACUETTE® Transport Containers
- / Racks and foam inserts for blood collection tubes
- / Cooler pack and cool pad
- / Transport bags and transport boxes

NO COMPROMISE ON SAMPLE QUALITY

Medical samples are a valuable asset. Maintaining their integrity is a prerequisite for high-quality analytical results.

Your laboratory samples are thus consistently protected from light in the VACUETTE® transport system and if neces-

sary can be kept cool directly in the secondary container using insulated carrying bags and highly effective cooling pads for prolonged periods. This means the quality of your laboratory results does not depend on the weather.

Adequate and proper sample transport is the prerequisite for consistent analytical results.

TESTED BY AN INDEPENDENT INSTITUTE

You can find test reports in the download center on our website www.gbo.com

The VACUETTE® Transport Line is certified for the transport of Category B biological substances according to UN 3373. All individual components comply with ADR/RID (Packaging Instruction P650), IATA-DG, ICAO-TI and the IMDG Code and have been tested for suitability by independent, accredited institutes.

VACUETTE® Transport Boxes

The VACUETTE® Transport Boxes made of polypropylene (PP) are stackable and suitable for transporting up to 40 tubes. The box is leak-proof and has a click closure for fast and convenient opening and closing. The foam insert is suitable for tube diameters of 9-16 mm.

VACUETTE® Transport Containers

Our VACUETTE® Transport Container is a practical container made of polypropylene (PP) for transporting up to 12 tubes. The container is closed with a screw cap and is leak-proof. The foam insert is suitable for tube diameters of 9-16 mm.

Isotherm transport bags

The Isotherm transport bags are available in different sizes for transporting several boxes or containers. The transport bags are robust, light-weight and help to keep the temperature low due to the thermally insulating outer material.

THREE COMPONENTS

for the safe transport of biological substances

BE SURE TO TRANSPORT SAMPLES CORRECTLY

In accordance with ADR/RID, IATA, the IMDG Code and ICAO-TI, transport containers for shipping biological substances under Category B (UN 3373) must consist of three components.

1 FIRST PACKAGING

Liquid-tight up to a pressure difference of 95 kPa.

- / VACUETTE® Blood Collection Tube
- / VACUETTE® Urine Tube
- / Greiner Bio-One Saliva Transfer Tube
- / VACUETTE® Virus Stabilization Tube
- / VACUETTE® SECONDARY Tube with Cap

2 SECOND PACKAGING

Protects samples and contains absorbent material in case of leakage.

- / VACUETTE® Transport Box (VTB)
- / VACUETTE® Transport Container (VTC)

3 THIRD PACKAGING

Protects against mechanical influences, temperature fluctuations and light. Standard-compliant labelling.

- / Shipping carton
- / Isotherm transport bag

FLEXIBLE PRODUCT SOLUTIONS

VACUETTE® Transport Box (VTB)*

- / Robust polypropylene box
- / For transporting up to 40 tubes
- / Optionally including transport carton
- / With practical click closure
- / Leak-proof due to sealing ring
- / Absorbent pad
- / Holder for cooler pack
- / Stackable

VACUETTE® Transport Container (VTC)*

- / Practically sized polypropylene container
- / For transporting up to 12 tubes
- / Optionally including transport carton
- / With screw closure
- / Absorbent pad

* Please note that the VACUETTE® Transport Box (VTB) and VACUETTE® Transport Container (VTC) only fulfil ADR/RID, IATA-DG, ICAO-TI and IMDG Code regulations if used with the appropriate transport carton or carrier bag, and that Greiner Bio-One does not take responsibility for inappropriate transport. The regulations are applicable for transport by road, rail, air and/or ship.

RACK for Blood Collection Tubes

- / Practical rack for holding 10 sample tubes with 11-17 mm outer diameter
- / 3 racks fit into the slots in the VACUETTE® Transport Box (VTB)
- / Autoclavable
- / Cleaning with common disinfectants and cleaning agents
- / Suitable for sample archiving

FOAM INSERTS

- / For 40 (Transport Box) or 12 (Transport Container) sample tubes
- / Foam inserts for tube diameters from 9 to 16 mm
- / Autoclavable at 120°C according to ASTM D 3574

COOLING OPTIONS

- / Cooler pack ideal for inserting into the VACUETTE® Transport Box (VTB) and Isotherm transport bags
- / Cooler pad (round) ideal for inserting in the VACUETTE® Transport Container (VTC)
- / Extra flat
- / Rechargeable in refrigerator
- / Cooler pack conforms to DIN 18864

ISOTHERM Transport Bags

- / Insulation material makes cooled sample transport possible
- / Tested in accordance with the requirements of Packaging Instruction P650 (ADR/RID, IATA-DG, ICAO-TI and the IMDG Code)
- / Large viewing window for transport papers or additional information on the back
- / Robust and extremely light design

AVAILABLE IN DIFFERENT SIZES:

- / Rectangular bag for 1 VTB
- / Rectangular bag for 2 VTBs
- / Rectangular bag for 3 VTBs
- / Rectangular bag for 4 VTBs
- / Round bag for 1 VTC

TRANSPORT CARTONS

- / Shipping box for VACUETTE® Transport Box (VTB)
- / Shipping box for VACUETTE® Transport Container (VTC)
- / Robust transport box
- / Standard-compliant labelling

ADVANTAGES

SECURE SAMPLE TRANSPORT

Your staff remains consistently and professionally protected against potential infections.

TESTED AND CERTIFIED

All VACUETTE® Transport Line products have been tested and certified by an independent, accredited institute.

WIDE VARIETY OF ACCESSORIES

Greiner Bio-One offers you everything you need for safe sample transport.

PRODUCT OVERVIEW

VACUETTE® Transport Boxes

Item no.	Description	Qty. inner / outer
472001	VACUETTE® Transport Box (VTB), incl. Foam Insert for 40 Tubes, with Transport Carton HK0190	1 / 10
472040	VACUETTE® Transport Box (VTB), incl. Foam Insert for 40 Tubes	1 / 10
472010	Foam Insert for VACUETTE® Transport Box (VTB), for 40 Tubes (all sizes)	- / 168
472016	Cooler Pack for VACUETTE® Transport Box (VTB)	- / 104
472011	Rack for Blood Collection Tubes, 10 positions, autoclavable	1 / 100
472015	Absorbent Pad for VTB / VTC	- / 2,500

VACUETTE® Transport Containers

Item no.	Description	Height	Width	Qty. inner / outer
800105	VACUETTE® Transport Container (VTC), incl. Foam Insert for 12 Tubes, with Transport Carton HK0259	128.7 mm	113 mm	1 / 12
800110	VACUETTE® Transport Container (VTC), incl. Foam Insert for 12 Tubes, without Transport Carton HK0259	128.7 mm	113 mm	1 / 12
800101	Foam insert for VACUETTE® Transport Container (VTC), for 12 tubes	70 mm	107 mm	- / 336
800102	Container volume 60 ml with absorbent pad and screw cap, without symbol	127 mm	28 mm	- / 300
472017	Cooler Pack for VACUETTE® Transport Container (VTC)	12 mm	107 mm	- / 150

Transport Bags

Item no.	Description	Height	Length	Width	Product colour	Qty. inner / outer
472020	for 1 piece VACUETTE® Transport Box (VTB), small	250 mm	300 mm	170 mm	● royal blue	1 / 16
472030	for 2 pieces VACUETTE® Transport Boxes (VTB), medium	250 mm	320 mm	300 mm	● royal blue	1 / 8
472023	for 3 pieces VACUETTE® Transport Boxes (VTB), medium	250 mm	480 mm	300 mm	● royal blue	1 / 4
472024	for 4 pieces VACUETTE® Transport Boxes (VTB), big	250 mm	640 mm	300 mm	● royal blue	1 / 4
472022	for 1 piece VACUETTE® Transport Container (VTC), small	160 mm	145 mm		● royal blue	1 / 50
